PROFESSIONAL SUMMARY

Innovation-driven **Full Stack Developer** with 1.5+ years of experience engineering scalable **Web Applications**. Expert in **Web Architecture**, **Back End** development, and **Web design**. Proficient in multiple **programming languages** including Python and JavaScript. Possesses strong **problem solving skills**, **organizational skills**, and **verbal communication skills**. Proven track record of delivering enterprise-grade cloud storage solutions and AI applications that drove measurable efficiency improvements.

TECHNICAL SKILLS

- **Programming Languages:** Python (Expert), JavaScript (Node.js), TypeScript, SQL, C++, HTML5, CSS3.
- **Front end languages & Web Design:** React.js, Next.js, Tailwind CSS, Responsive Design.
- **Back End & Architecture:** Microservices, Producer-Worker Pattern, RESTful APIs, Fastify, Express.js, FastAPI.
- **AI & Automation:** Agentic AI, RAG Systems, LangChain, CrewAI, Gemini LLM, WebSockets.
- **Cloud & DevOps:** AWS (S3, EC2), DigitalOcean, Docker, Redis, RabbitMQ, CI/CD, Git.
- **Key Competencies:** Project Management, Attention to Detail, Verbal Communication.

PROFESSIONAL EXPERIENCE

NNIIT PVT. LTD

Software Development Engineer (AI)

Hyderabad, India

Nov 2025 – Present

- **Increased efficiency by 30%** by engineering Agentic AI workflows using CrewAI to automate class scheduling and attendance tracking tasks.
- Built a robust Retrieval-Augmented Generation (RAG) system to store user context, ensuring high data consistency and personalized AI responses.
- Led **Project Management** for a team of interns, guiding the delivery of a Python analytics service and an NLP flashcard generator.

NNIIT PVT. LTD

Full Stack Engineer

Hyderabad, India

Jun 2025 – Nov 2025

- Architected a scalable backend using Node.js and Fastify, successfully deploying **60+ RESTful APIs** and a complex hierarchical file storage system.
- Achieved **99.9% system reliability** by decoupling heavy background processes into a Producer-Worker microservice using RabbitMQ.
- Integrated secure payment gateways and Role-Based Access Control (RBAC), directly supporting revenue generation and platform security.

Games World League
Full Stack Software Developer

Remote
May 2024 – April 2025

- Achieved a **40% reduction** in query execution time for high-traffic gaming modules by optimizing PostgreSQL schemas and indexing strategies.
- Supported **10,000+** daily active users by implementing secure JWT-based authentication and transitioning to Dockerized microservices.
- Streamlined deployment timelines by orchestrating CI/CD pipelines via Jenkins, demonstrating strong problem solving skills.

BlueKei Solutions
Software Development Intern

Pune, MH
Feb 2024 – May 2024

- Developed responsive UI components using **Front end languages** (React.js) and integrated them with Django REST Framework backends.
- Reduced manual data entry workload by **20%** through the creation of internal Python automation scripts.

TECHNICAL PROJECTS

Wizard Vibe — *Gemini, CrewAI, Socket.IO, Next.js*

- Developed an Agentic AI assistant enabling real-time collaboration and automated complex workflows.

Lok Darpan — *Next.js, Node.js, MongoDB*

- Built a civic engagement platform using **Web Applications** best practices for high performance and scalability.

Expense Tracker — *Next.js, Chart.js, Node.js*

- Created a financial dashboard with interactive data visualization using Chart.js.

EDUCATION

B.Tech in Computer Science & Engineering
Bapurao Deshmukh College of Engineering, Wardha (Nagpur University)

May 2024
